Report based on Maine Revenue Service data as of 11/19/2007

Maine State Planning Office   **November 28, 2007**

INTRODUCTION

This report contains data on taxable Maine retail sales, as derived from state sales tax collections. The Maine State Planning Office uses data from Maine Revenue Services to produce this report.

These data represent sales, not the amount of tax revenue collected. Sales are categorized by the type of store in which they take place, not by the type of product sold. For example, sales of kitchen utensils at a supermarket appear under "food store sales" rather than "general merchandise."

"Consumer Retail Sales" are the sum of sales to the six store-type groups (building supply, general merchandise, etc.). "Total Retail Sales" are the sum of Consumer Retail Sales and "Business Operating Sales," a special category not published in these pages. "Business Operating Sales" include utility sales and heating oil sold to commercial and industrial establishments. Thus, Consumer Retail Sales more accurately describe what most people regard as retail sales.

When interpreting the tables in this report, readers should keep in mind that food intended for home consumption is not taxed in Maine. Data on food store sales reflect sales of non-food items. These items typically represent about 25% of actual total sales in food stores.

The Maine Revenue Service does not release sales data when the sales for a specific business can be identified. For each month data is witheld to protect taxpayer confidentiality, the corresponding previous or current month is also excluded from percentage calculation. If the sales in all months within a quarter are withheld, the percentage is marked by 'ND' for Non-Disclosure.

DEFINITIONS OF STORE-TYPE GROUPS

Note: In Maine's sales tax system, codings are by store type, not product. Thus, each store is coded into one of the store-type groups below depending on its predominant product; i.e., furniture sold by a furniture store will be included in General Merchandise sales while furniture sold by a hardware store will be included in Building Supply sales.

1. Consumer Retail Sales   Taxable retail sales to consumers.

2. Total Retail Sales   Includes Consumer Retail Sales plus special types of business-to-business sales and rentals where the tax is paid directly by the buyer (such as commercial or industrial heating oil purchases).

3. Building Supply   Durable equipment sales, contractors' sales, hardware stores and lumber yards.
